## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

5       Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

      Claims 21-23 are rejected under 35 U.S.C. 101 because the claimed invention is  
10   directed to non-statutory subject matter. The descriptions or expressions of programs are not physical "things". They are neither computer components nor statutory processes, as they are not "acts" being performed. Such claimed computer programs do not define any structural and functional interrelationships between the computer program and other claimed elements of a computer, which permit the computer  
15   program's functionality to be realized (MPEP 2106).

### ***Allowable Subject Matter***

      Claims 10-20 are allowed.

### ***Conclusion***

20       The prior art made of record, as cited on attached PTO-892, and not relied upon is considered pertinent to applicant's disclosure.
